SUMMARY

Highly motivated software developer with experience in developing and implementing software applications. Skilled in Python, Django and Java with strong problem-solving and analytical skills.

SKILLS

Python

Java

HTML, CSS, JS

Problem Solving

Quick Learning

DATABASES

Oracle

Postgres

MySQL

FRAMEWORKS

Django

BackboneJS

AREAS OF INTEREST

DBMS

OOPS

WORK EXPERIENCE

Software Developer

May 2022 - PRESENT

Testpress Tech Labs

- Developed a window monitoring feature that simulated the exam environment, resulting in a considerable decrease in cheating incidents during exams.
- Added support for adding, editing, and deleting topics for doubts functionality in UI, resulting in a 25% increase in user engagement and satisfaction.
- Refactored some legacy code resulting in decrease in maintenance requirements.
- Utilized test cases to perform in-depth bug fixes and implemented performance improvements, resulting in a improvement in system performance and decrease in error rates.

PROJECTS

Question and Answer Web App - Django

Designed and developed a Question and Answer application with features similar to Quora and Stack Overflow, including upvoting, downvoting, commenting, and replying to comments.

Learning Management System - Django

Created and implemented a comprehensive Learning Management System with diverse features, including the ability to create courses and chapters, and support for various content types such as videos, text, files, and images.

CERTIFICATIONS

Full Stack Development Course

Nov 2021-May 2022

Institution: Kodnest, Bangalore

Centre for Technology Development and Transfer

Digital Outpass System

Aug 2016-Nov 2016

EDUCATION

B.Tech Information Technology

2013-2017

Madras Institute of Technology,
Chennai

CGPA: 7.52 on a scale of 10
